*The area's leading comfort experts for all your
Heating and Air Conditioning needs!*

Price Book Set Up Instructions

BSI's **Mitsubishi Flat Rate Ductless Installation Price Book** is designed to help our client contractors outperform the competition with a “customized-to-your-business” replacement installation “*Upfront*” consumer pricing guide.

We designed the price book to be used by both *Comfort Advisors* on a replacement sales call or for the *Selling Technicians* on a service call where they have identified a replacement opportunity.

Easy 1-Page Price Book Set-up:

Located on this web page, you will find the 1-page Set-up/Order Form. On this Form you provide us your unique labor costs, gross profit margin, finance rates, and your local utility rates.

Set-up of Installation Cost-of-Goods-Sold:

You provide us your preferred equipment vendor pricing from your vendor which we import your actual costs for equipment, materials, and warranties by system type and size.

We multiply by your provided labor cost rates by the “built-in” installation labor hours for a Crew Chief and Helper to arrive at your *Total Installation Labor Cost*. You may modify the “built-in” labor hours for any system configuration by faxing us your changes via marked up *User Guide* pages also located on this page.

Your Unique Installed Sell Price:

Your unique Installed Sell Price will be based on your provided gross profit margin rate.

Configuration Options:

This price book provides option from 1 zone to 8 zone configurations, as well as, different levels of energy efficiencies.

Prices Shown are Illustrative Only

- This “demo” price book was designed for demonstration purposes only.
- **The pricing shown is for a fictitious contractor and climate zone, and is not meant to be representative to local area pricing.**
- **You are NOT authorized to use this demo price guide for pricing work.**
- We will make your pricing accurate to your business and based on your unique local area labor costs, equipment/materials costs, unique overhead and net profit set-up requirements.
- We include your local financing options, and energy savings tables according to your local utility rates and climate zone.

The Best Heating & Air

Mission Statement

- **Our Commitment:** We are committed to providing the highest quality and performance in all aspects of the equipment replacement industry, utilizing our core strengths to ensure the continued success of our employees and our customers.
- **Core Services:** Design, fabrication, installation, and service of heating, air conditioning, indoor air quality, and ventilation systems, as well as electrical, temperature, and humidity controls.
- **Core Strengths:** Experienced leadership, excellence, trustworthiness, loyalty, and pride in our reputation for quality workmanship and teamwork, our multi-trade capabilities, and our knowledge of and commitment to innovativeness.
- **Success for Employees:** Provide fair compensation, security, trust, recognition, and a good working atmosphere.
- **Success for Customers:** Provide quality, competitive pricing, trust, partnership, and our ability to meet their unique requirements.

The Best Heating & Air

Who we are:

- ▶ A premiere residential-commercial service
- ▶ We have consistently grown each year due to our competitive programs and services.
- ▶ Our company has continued to invest in state-of-the-art technology that allows us to deliver the highest level of service with the lowest possible cost.
- ▶ Our written training and employee development programs ensure the delivery of safe, reliable service in and around your home.
- ▶ We have a written drug-free hiring policy to protect our customers and their property.

What makes us different:

- ▶ We offer the industry's best Install-Right® guarantees, warranties and assurances.
- ▶ Our field management and equipment installation procedures enable us to take care of everything and assume responsibility for everything.
- ▶ We are an unbiased independent contractor, not a manufacturer-sponsored dealer.
- ▶ We minimize all personal risk from doing business with us through our delivery systems and our liability coverage.
- ▶ We **Guard** both your time and your equipment replacement investment money.

The Best Heating & Air

The Home Comfort Certified System[®]

7-Step Approach

1. Conduct the Home Use and Livability Survey to ensure your personal, technical and timing objectives are met.
↓
2. Conduct Manual-J heat gain/loss measurement to right-size the capacity of replacement equipment and the duct distribution system installation.
↓
3. Analyze the data gathered to ensure proper equipment sizing and inclusion of any accessories to meet your special requirements.
↓
4. Sit down with you to explore your installation and purchase options.
↓
5. Back up all of our work with unsurpassed written Install-Right[®] guarantees, warranties and assurances.
↓
6. Organize, educate and schedule installation personnel and manage your installation requirements.
↓
7. Precision tune and implement a warranty

The Best Heating & Air

Why we set the Standards of Performance

- 90% of all installations have problems resulting in unnecessary energy inefficiencies due to:
 - Too large or too small equipment sizing
 - Improper match between condenser and evaporator
 - Improper duct sizing or distribution
 - Improper duct insulation or sealing
 - Leaking or disconnected ductwork or diffusers
 - Improper system balancing
 - Improper system charging
- 40% of all installations fail to meet airflow requirements resulting in poor indoor comfort due to:
 - Improperly sized equipment
 - Improper duct distribution design
 - Improper diffuser type or location
 - Leaking or disconnected ducts and diffusers
 - Improper system balancing
- 50% of all installations are not charged properly resulting in up to 50% higher operating costs due to:
 - Improper start-up, test and installation verification per manufacturer's specifications and industry best practices
 - Untrained installation personnel
 - Poor contractor installation

Source: Studies conducted by North Carolina Alternative Energy Corporation, Texas A&M University, Louisiana State University and BSI client customer surveys.

With our Home Comfort Certified System® we guarantee that your equipment will be in the top 10% of all installations.

The Best Heating & Air

Quality Installations by Design

Pre-installation:

1. Our proven Home Use & Livability Survey data gathering techniques enable us to provide our customers with unconditional performance guarantees.
2. Our computerized Manual-J home load modeling guarantees that heating, cooling and comfort capacities will be met.
3. Our equipment/system selection process guarantees that we meet both your personal requirements and home aesthetics requirements.
4. We select the most appropriate installation implementation process that guarantees our customers the lowest possible installation costs.
6. We specialize in working in occupied spaces and know the challenges; therefore we keep our work areas clean and actively plan our work methods to minimize any possible disruption.
7. We verify and test all completed work to guarantee that everything was installed per specifications and according to best industry standards.
8. Our in-depth homeowner training guarantees that you will maximize your investment.

Installation:

5. We will assign an installation team that will take care of everything, manage everything, and be totally responsible for everything.

Post-installation:

9. Our installations are performed per industry best practice, which has continuously proven to reduce emergency or trouble calls. However, if an emergency does occur, you will receive our highest priority response. We respond to emergency trouble calls, even during peak periods, within four (4) hours or less of your call.

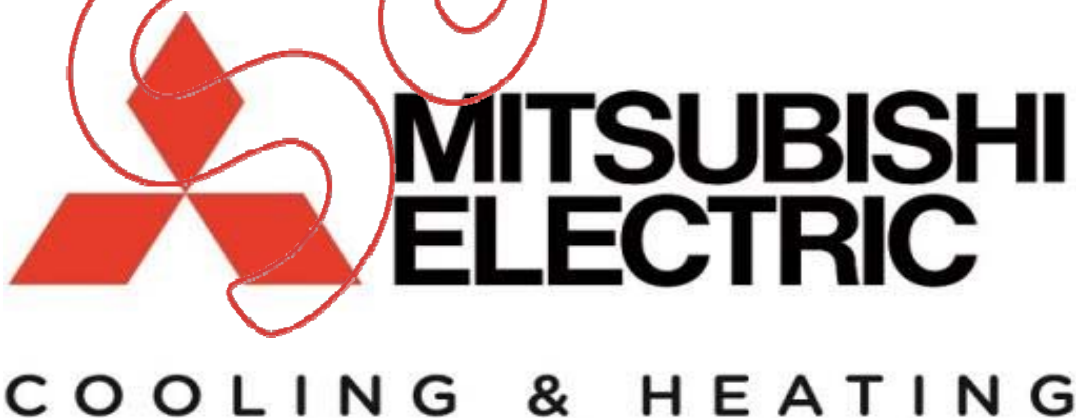

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

PRICE BOOK

NOTE: Important installation pricing information:

1. All installation prices are based on gravity condensate drain.
2. All installation prices are based on one (1) wall penetration per indoor wall unit for piping and electrical lines.
3. The *Line Hide*® used on all installations, to hide exposed exterior electrical/piping from the outdoor unit to the wall penetration, is based on a single riser up to 8-feet.
4. Single-zone installation prices are based on wall unit being mounted directly opposite of wall penetration.
5. Multi-zone installation prices are based on electrical/piping lines from outdoor unit to wall units being run exposed in ceiling/cellar open spaces.
6. Power wiring is included and based on existing available capacity in the electrical panel as well as being run exposed on open ceiling or walls from electrical panel to outdoor unit.

If needed, adjustments can be made to the customer's installation investment on the *Investment Option Worksheet* for the following scenarios and more: swapping Wall-mounted indoor units with Ceiling-ducted or Floor-Standing units; adding condensate drain pumps; creating additional wall penetrations; running line-sets and wiring through walls or closed ceilings; above average electrical subcontract install; using additional *Line Hide*®, adjusting labor for difficult access; or adding unclassified materials or optional accessories and labor.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

MULTI-ZONE HEAT PUMP - 4, 5 ZONES up to 3 TON

COOLING & HEATING

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

MULTI-ZONE HEAT PUMP - 2, 3 ZONES up to 4 TON

SYSTEM	INDOOR UNIT COMBINATION	CLG/HTG BTU	INVESTMENT	SEER/EER/MSPF
--------	-------------------------	-------------	------------	---------------

M-Series MXZ-8C48NA Multi-Zone Heat Pump

- Complete comfort with individual zone control
- Easily accessible and long lasting washable filters
- Easy, low cost installation
- One wireless remote controller for each Indoor unit
- Variable-speed Compressor technology**
- Anti-allergy enzyme filter & Hybrid Catechin pre-filter
- 10-Year parts, 1-Year labor (with registration)

Indoor Unit 6 = MSZ-GL06NA
 Indoor Unit 9 = MSZ-GL09NA
 Indoor Unit 12 = MSZ-GL12NA
 Indoor Unit 15 = MSZ-GL15NA
 Indoor Unit 18 = MSZ-GL18NA
 Indoor Unit 24 = MSZ-GL24NA
 Indoor Unit 30 = PLA-A30BA
 Indoor Unit 36 = PLA-A36BA

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".
 Substitute a PEA(D) for the PLA including up to (3) diffusers, (3) 10" flex runs up to 12', and (1) filter return for the same price.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

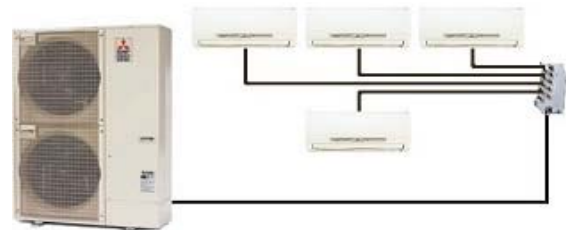

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

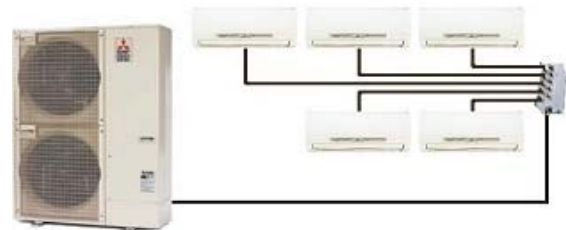

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

Options: Floor/Ceiling, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

COOLING & HEATING

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

 Indoor Unit 12 = MSZ-GL12NA
 Indoor Unit 15 = MSZ-GL15NA
 Indoor Unit 18 = MSZ-GL18NA

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

MFZ MVZ SLZ/PLA PEA(D)/SEZ

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

MULTI-ZONE Hyper-Heating HP - 2 ZONES up to 3.5 TON

SYSTEM	INDOOR UNIT COMBINATION	CLG/HTG BTU	INVESTMENT	SEER/EER/MSPF

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

MULTI-ZONE Hyper-Heating HP - 2, 3 ZONES up to 4 TON

SYSTEM	INDOOR UNIT COMBINATION	CLG/HTG BTU	INVESTMENT	SEER/EER/MSPF
--------	-------------------------	-------------	------------	---------------

M-Series MXZ-8C48NAHZ Multi-Zone Heat Pump

- Complete comfort with individual zone control
- Easily accessible and long lasting washable filters
- Easy, low cost installation
- One wireless remote controller for each Indoor unit
- h²i** Hyper-Heating performance
- Variable-speed Compressor technology**
- Anti-allergy enzyme filter & Hybrid Catechin pre-filter
- 10-Year parts, 1-Year labor (with registration)
-  **Energy Star® rated** (could qualify for tax credit)

- Indoor Unit 6 = MSZ-GL06NA
- Indoor Unit 9 = MSZ-GL09NA
- Indoor Unit 12 = MSZ-GL12NA
- Indoor Unit 15 = MSZ-GL15NA
- Indoor Unit 18 = MSZ-GL18NA
- Indoor Unit 24 = MSZ-GL24NA
- Indoor Unit 30 = PLA-A30BA
- Indoor Unit 36 = PLA-A36BA

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".
Substitute a PEAD for the PLA including up to (3) diffusers, (3) 10" flex runs up to 12', and (1) filter return for the same price.

COOLING & HEATING

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide[®] for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

MULTI-ZONE Hyper-Heating HP - 4 ZONES up to 4 TON

SYSTEM	INDOOR UNIT COMBINATION	CLG/HTG BTU	INVESTMENT	SEER/EER/MSPF	
--------	-------------------------	-------------	------------	---------------	--

M-Series MXZ-8C48NAHZ Multi-Zone Heat Pump

- Complete comfort with individual zone control
- Easily accessible and long lasting washable filters
- Easy, low cost installation
- One wireless remote controller for each Indoor unit
- h²i** Hyper-Heating performance
- Variable-speed Compressor technology**
- Anti-allergy enzyme filter & Hybrid Catechin pre-filter
- 10-Year parts, 1-Year labor (with registration)
-  **Energy Star[®] rated** (could qualify for tax credit)

- Indoor Unit 6 = MSZ-GL06NA
- Indoor Unit 9 = MSZ-GL09NA
- Indoor Unit 12 = MSZ-GL12NA
- Indoor Unit 15 = MSZ-GL15NA
- Indoor Unit 18 = MSZ-GL18NA
- Indoor Unit 24 = MSZ-GL24NA
- Indoor Unit 30 = PLA-A30BA

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".
Substitute a PEAD for the PLA including up to (3) diffusers, (3) 10" flex runs up to 12', and (1) filter return for the same price.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection

Licensed to The Best Heating & Air under the Grant of License terms of the Home Comfort User License Agreement.

Options: Floor Mount, Air Handler, Ceiling Inset/Ducted

To substitute the MSZ-GL with one of these, please see the "Investment Option Worksheet".

To substitute the MSZ-EF Elegant Finish or MSZ-FH with Hyper Heat for the MSZ-GL please see the "Investment Option Worksheet".

COOLING & HEATING

NOTE: Due to continuous product improvements, please consult latest product guides to verify ratings and system match-up suitability.

All Systems Include (as needed):

- New equipment mounting pad & pump-up risers
- Set and level unit
- New 15ft line-set to Branch Box and each indoor unit
- New condensate drain line
- New electrical disconnect with power wire to outdoor unit
- Line Hide® for all exterior exposed electrical/piping lines
- Equipment start-up and safety inspection
